Aug 2024 – May 2028

EDUCATION

B.Tech – Computer Engineering

AISSMS Institute of Information Technology, Pune (SPPU)

TECHNICAL SKILLS

Languages	Python · JavaScript (ES6+) · C++ · Java
Frameworks / Libs	React.js · Node.js · NumPy · Pandas
Tools & Platforms	Git & GitHub · Anaconda · JupyterLab · Google Colab · VS Code ·
Concepts	Data Science Fundamentals · OOP · Linux CLI · Prompt Engineering

PROJECTS

Synapse – Always-On Voice AI Assistant

Python · SpeechRecognition · pyttsx3 ·
Threading github.com/Shreyasnalle/Synapse

- Always-on background voice assistant in Python that listens passively throughout your device session and responds on trigger, “Synapse”
- Implemented multiple python packages, worked on voice audio and microphone voice conflicts
- Integrated GrokAPI for open-ended conversational Q&A

ListenWise – AI-Powered Travel Language Platform

React.js · Gemini Live API · Framer
Motion

- Designed and developed a platform for eliminating all the problems of language barrier and learning
- Engineered feature set including real-time bidirectional translation, ambient vocabulary extraction, and camera-based translation, exceeding standard translation tools features, even Google’s translator
- Integrated a Cultural Context Layer and Survival Phrases mode to make international travel genuinely accessible, even in emergency, thus not just being a linguistically translator

Social Network Data Analysis

Python · Pandas · JupyterLab

- Performed end-to-end data cleaning, transformation, and analysis on a JSON-structured social network dataset using core python
- Applied list comprehensions, custom algorithm design, and structured querying to extract meaningful relationship and activity insights
- This project was all about to understand why core Python is adequate enough for data science thus knowing the importance of python libraries like Numpy and Pandas

CERTIFICATIONS & COURSES

- 100 Days of Code : The complete Python Bootcamp

- Data Science by Code with Harry
- Anthropic SkillJar – Prompt Engineering & Claude API

In Progress

INTERESTS

LLM - SLM / Foundation Model Research · Multi-Agent AI Systems · Computer Vision · NLP · Cloud ·
Personal Finance & Commodity Trading (MCX)

EXTRACURRICULAR ACHIEVMENTS & COMMUNITY

Special Mention at DPU MUN 2025

TENET MUN Marketing Head

Student Member at AISSMS IOIT ACM Student Chapter

Techinal Team member of CESSA, AISSMS IOIT
